

Ministerial Advisory Council on Disability

2017 - 2018 Annual Work Plan

Members of the Council work together and in sub-committees to provide the Minister for Disability Services for Western Australia with advice on the following priority areas:

1. Employment
2. Housing
3. Transport
4. Legislation
5. Health
6. Individualised Planning

Advice provided to Minister Stephen Dawson by the Council will consider what could be achieved in the short-term, medium-term and into the future to break down the barriers for people with disabilities to access fulfilling employment, suitable housing options and public transport.

Council also maintains a watch on other areas of interest; particularly, the roll out of the National Disability Insurance Scheme to identify areas that may need to be addressed to ensure its effectiveness for West Australian's with disabilities, their families, friends and carers.
